Professional Objective

Experienced pipeline construction supervisor with a strong background in poly welding, civil operations, and safety management. Demonstrated capability in leading multi-disciplinary site crews, enforcing WHS compliance, and delivering project outcomes across dewatering, pipeline, and civil construction environments in Western Australia.

2. Employment History

ACM Resources (Australia) Pty Ltd

June 2020 – Present

Supervisor

- Conducting regular inspections of construction sites to identify and eliminate potential safety hazards.
- Supervising and directing the pipeline construction team and subcontractors to ensure works are completed safely and to specification.
- Educating site personnel on construction safety regulations and accident reporting protocols.
- Enforcing site safety rules to minimise the risk of work-related accidents and injuries.
- Managing site incidents in accordance with established incident reporting and response procedures.
- Maintaining accurate records of construction employee attendance and performance.
- Evaluating employee performance and instituting disciplinary measures as required.
- Analysing project plans to ensure construction activities meet design, safety, and budget specifications.
- Recommending changes to construction operations and procedures to improve efficiency.
- Applying sound knowledge of construction safety regulations and demonstrating outstanding leadership skills.

Innotech

July 2018 – January 2020
