Professional Objective

Highly experienced construction and pipeline superintendent with a proven record of managing large-scale civil, poly welding, and dewatering projects across mining environments in Western Australia. Skilled in leading multi-trade workforces, project budgeting, site safety compliance, and client relationship management.

2. Employment History

Yanta — Talison Lithium Mine, Greenbushes

October 2022 – Present

Superintendent

- Reporting directly to the Managing Director and overseeing all operational aspects of company projects, including BGM installation, civil works (trenching for power), and poly welding operations, ensuring each project is delivered efficiently, safely, and in compliance with all applicable regulations and client expectations.
- Leading and managing a workforce of 50 employees, 5 supervisors, and various contractors across multiple active projects to drive productivity and foster a positive, safety-focused workplace culture.
- Coordinating all project activities including production, maintenance, and logistics.
- Managing project budgets to ensure cost effectiveness and financial accountability.
- Conducting regular site inspections and engaging directly with the workforce.
- Providing technical and practical support to site personnel.
- Ensuring all activities are conducted in compliance with health, safety, environmental, and operational procedures.
- Planning, prioritising, and coordinating daily work schedules to meet operational and site requirements.
- Monitoring performance, conducting inspections, and reporting on project outputs, system reliability, and improvement opportunities.
- Working collaboratively across project teams to ensure seamless service delivery.
- Leading and supporting continuous improvement initiatives to enhance system efficiency and performance.
- Actively seeking new business opportunities to expand the company's project portfolio.
- Preparing and presenting detailed estimates of job scopes and costings to prospective clients.

TCD Group — Various FMG Sites*August 2021 – October 2022***Leading Hand Mobile Plant Operator**

- Operating excavators and heavy rigid vehicles across multiple Fortescue Metals Group project sites.
- Installing dewatering systems in accordance with project specifications.
- Ensuring all operations were conducted safely while meeting contract deliverables in relation to quality standards and schedule requirements.
- Actively participating in pre-start meetings and daily work briefings.
- Participating in Team Based Risk Assessments (TBRA) to ensure all hazards and risks were identified, communicated, and controlled prior to commencing work.
- Maintaining a duty of care for self and fellow workers at all times.
- Working in alignment with quality, health, safety, and environmental compliance requirements.
