Professional Objective

A highly experienced Senior Site Supervisor and Project Manager with over 25 years in the civil construction and mining industries, encompassing power and solar infrastructure, concrete works, civil earthworks, water capture and transfer, load and haul, and pad construction. Scott holds a Schedule 26 statutory mine supervisor certificate and has delivered complex multi-workgroup projects for Tier 1 clients including Rio Tinto and Fortescue, with demonstrated expertise in budget management, safety leadership, and site-based project management.

2. Employment History

ACM Resources (Australia) Pty Ltd

August 2020 – Present

Senior Project Supervisor

- Managed several large-scale projects including the construction of land farms, major and minor roadworks, civil construction, and multiple concurrent workgroup management.
- Administered and reported against budgeting KPIs, production KPIs, and safety KPIs across all supervised projects.
- Oversaw all aspects of site-based project supervision and management, ensuring client scope of works was delivered on time and within budget.
- Coordinated personnel, plant, and materials resources across multiple workgroups to optimise productivity and safety outcomes.

Innotech

2019 – July 2020

Supervisor

- Supervised bore pad construction activities.
- Managed road and access track construction and maintenance.
- Coordinated pipeline and data line construction works.
- Conducted site-based project management including budget controls, coordination of all resources, and OHS&E; management, ensuring team members adhered to client scope of works at all times.

Longfields

2018 – 2019

Supervisor

- Supervised foundation works for transmission and distribution line infrastructure.
- Managed Rio Tinto solar farm and bore pad construction projects.
- Delivered staff training and performance management.
- Conducted site-based project management including budget controls, coordination of all resources, and OHS&E; management, ensuring team members adhered to client scope of works at all times.

3. Skills & Competencies

Competency Area	Detail
Site Supervision & Project Management	Over 25 years of site supervision and project management experience across civil mining, power infrastructure, and earthworks. Proven in budget management, KPI reporting, and multi-workgroup coordination.
Civil Mining Works	Extensive experience in land farm construction, bore pad development, roadworks, pipeline construction, civil earthworks, and clearing operations across iron ore and solar energy projects.
Safety Leadership	Holds a Schedule 26 statutory mine supervisor certificate. Completed Safety Leadership for Supervisors training. Experienced in OHS&E; management, SWMS development, and incident management.
Power & Solar Infrastructure	Supervised foundation works and construction activities for transmission, distribution, and solar energy projects for Rio Tinto and other Tier 1 clients.
Plant Operation	Competent operator of excavators, skid steers, and telehandlers. Holds an HR-B Drivers Licence and is proficient in 4WD vehicle operation in remote environments.

4. Licences & Certifications

Certification / Ticket	Category	Details
