Visa	Australian Citizen
Availability	Full Time

Professional Objective

Experienced Civil and Pipeline Supervisor with over 13 years in energy, civil, and mining construction, and more than 10 years in senior construction supervision roles. Mark brings strong expertise in pipeline project management, poly welding, hot tap and squeeze-off operations, and multi-front construction supervision. His career spans major projects for Santos, Arrow Energy, Origin Energy, QGC, Senex, Rio Tinto, and FMG across Queensland, Western Australia, and South Australia. A strong safety leader with a zero-harm focus, excellent mentoring capability, and the technical depth to manage complex pipeline and civil construction programmes.

2. Employment History

Innotech

November 2020 – 2022

Construction Supervisor

- Conducted daily pre-start meetings to ensure crews were briefed on scope, safety, and schedule.
- Managed construction of 33km of pipeline from mobilisation through to completion.
- Oversaw installation of electrical panels and construction of bore pads.
- Set performance goals and deadlines in alignment with the company's schedule and vision.
- Monitored work sites by completing safety and environmental audits to ensure safe systems of work.
- Applied solid working knowledge of cost control, quality control, inventory management, material management, and production scheduling.
- Liaised with local councils and utility service providers to coordinate works.
- Managed risk and opportunity, and supervised multi-front construction activities.
- Prioritised and allocated crews and work activities to meet productivity and quality targets.
- Coached and counselled employees to improve performance and conducted daily toolbox talks and reports.
- Oversaw hydrostatic and pneumatic testing, coordinated subcontractors, and organised crews, materials, and plant.

Comdain Infrastructure — QLD Urban Utilities AC Water Mains Replacement

December 2018 – November 2020

Dewatering Technician

- Conducted daily pre-start meetings and set performance goals in line with project schedules.
- Completed safety and environmental audits on work sites to ensure safe systems of work were maintained.
- Applied working knowledge of cost control, inventory management, and labour relations.
- Liaised with local councils and utility service providers, and contributed to solution development and methodology.
- Managed risk and supervised multi-front construction activities.
- Allocated crews and work activities to meet productivity and quality targets.
- Oversaw hydrostatic and pneumatic testing, coordinated subcontractors, and organised crews, materials, and plant equipment.

Ipipe Services — CMSA Projects, Arrow Energy

December 2017 – December 2018

Construction Supervisor

- Supervised and monitored staff and subcontractors on HDPE pipe installation ranging from 63mm to 800mm.
- Set performance goals and monitored work sites through safety and environmental audits.
- Participated in high risk work activities including live digs, hot taps, live works, emergency works, and squeeze-off processes.
- Monitored schedules to ensure plant and welding equipment was available to meet compliance targets.
- Conducted regular line pipe inspections and ensured all works were completed to specification.
- Oversaw hydrostatic and pneumatic testing, installation of fuel gas generators, gas separators, and above-ground facilities.
- Conducted daily toolbox talks, daily reports, and allocated crews and work activities to meet project goals.

MPC Group — Roma Recovery Project, Santos

May 2017 – December 2017

Leading Hand / Hot Tap Technician

- Oversaw all welding activities including fabrication of HPV and LPD components.
- Operated McElroy welding machines to weld pipe from 63mm to 450mm.
- Installed all fabricated spool work and welded high-pressure gas and water lines.
- Performed manifold bolt-up and manifold insulation.
- Fabricated hot tap spools and ensured all QA documentation was correct.
- Performed hot tapping of high-pressure gas and water lines and oversaw fabrication for multiple sites.
- Mentored and assisted crews with complex pre-fabrication components.
- Performed squeeze-off of high-pressure gas and water lines and conducted riser installation.
- Reviewed construction works and signed off QA documents to confirm installation met system requirements.

Rio Tinto — Yandi Oxbow Dewatering Project

November 2016 – May 2017

Poly Welder

- Operated Dixon 450, 350, and 225 welding machines, and McElroy MC618 and T900 machines.
- Welded pipe from 63mm to 710mm and performed fabrication of custom spool work.
- Conducted bore installation and welded high-pressure water lines.
- Installed all fabricated spool work and performed manifold bolt-up.

Heathgate — Beverley Uranium Mine

November 2015 – November 2016

Pipeline Construction Supervisor

- Supervised pipeline construction activities at the Beverley Uranium Mine in South Australia.
- Managed crews and subcontractors, ensuring compliance with safety and project specifications.

W.D.S Limited — Roma West 2A Project

October 2014 – November 2015

Construction Supervisor

- Supervised construction crews on the Roma West 2A pipeline project.
- Managed safety, quality, and schedule compliance across the project scope.

Origin Energy*May 2013 – September 2014*

First Delivery, Operations

- Managed first delivery and operations activities for Origin Energy's Queensland gas field operations.

Lean Field Developments*August 2010 – May 2013*

Lead Field Construction Supervisor

- Led field construction supervision across pipeline and civil construction programmes.
- Managed crews, quality, safety, and schedule compliance across multiple project fronts.

W.D.S Limited — Kenya Gas Fields (QGC)*March 2008 – August 2010*

Poly Welder / Lead Fabricator

- Performed poly welding and led fabrication activities on the Kenya Gas Fields project for QGC.
- Managed quality of fabricated spool work and contributed to construction progress.

Contract Resources — Caltex Oil Refinery*April 2007 – February 2008*

Operator

- Performed operational duties at the Caltex Oil Refinery.

Transpacific — OneSteel*October 2005 – April 2007*

Operator

- Performed operational duties supporting OneSteel site operations.

South Coast Equipment — OneSteel*August 2001 – October 2005*

Operator

- Performed plant and equipment operations in support of OneSteel site activities.

3. Skills & Competencies

Competency Area	Detail
Pipeline Supervision	Extensive experience managing HDPE pipeline construction from 63mm to 800mm, including multi-front supervision, crew management, schedule and budget compliance, and stakeholder coordination across QLD, WA, and SA.
Hot Tap & Squeeze Off	Certified Hot Tap and Squeeze Off technician with hands-on experience performing and overseeing hot tap operations on high-pressure gas and water lines.
Poly Welding	Skilled poly welder experienced with Dixon (225/350/450), McElroy (MC618/T900), and butt fusion and electrofusion welding techniques across a wide range of pipe sizes.
Project Management	Proven capability in cost control, quality management, HSEQ compliance, subcontractor coordination, risk management, and multi-front construction delivery.
Leadership & Mentoring	Strong leader with experience managing and mentoring pipeline and civil construction crews. Skilled in conducting toolbox talks, coaching employees, and driving performance improvements.

4. Licences & Certifications

Certification / Ticket	Category	Details
Section 44 — Appointed Person	Safety	Section 44 certificate — Appointed Person for lifting operations.
White Card (CPCWHS1001)	Safety	National Construction Induction — Prepare to Work Safely in the Construction Industry.
Queensland Construction White Card	Safety	Queensland-issued White Card for construction industry.
PMBWELD301E — Butt Fusion Welding (HDPE)	Competency	Join polyethylene plastic pipelines using butt fusion welding.
PMBWELD302E — Electrofusion Welding (HDPE)	Competency	Join polyethylene plastic pipelines using electrofusion welding.
NACC00002 — Hot Tap and Squeeze Off	Competency	Certified Hot Tap and Squeeze Off technician.
Certificate III — Civil Construction (Pipe Laying)	Qualification	Nationally recognised qualification in civil construction pipe laying.
Certificate III — Gas Supply Industry Operations	Qualification	Nationally recognised qualification in gas supply industry operations.
Certificate II — Conservation and Land Management	Qualification	Certificate II in Conservation and Land Management.
Certificate III — Conservation and Land Management	Qualification	Certificate III in Conservation and Land Management.
Certificate I, II, III — Transport and Distribution Rail Civil Infrastructure	Qualification	Certificates I, II, and III in Transport and Distribution Rail Civil Infrastructure.
Confined Space Entry (WHS202E)	Safety	Certified to enter and work in confined spaces.
4WD Vehicle Operation (RIIVEH305A)	Competency	Certified to operate and maintain 4WD vehicles.
First Aid (HLTAID011)	Safety	Provide First Aid — current certification.
Gas Test Atmospheres (MSMWHS217)	Safety	Certified to test gas atmospheres for hazardous area and confined space entry.
Front End Loader (RIIMPO321F)	Plant	Conduct civil construction wheeled front end loader operations.
Skid Steer Loader (RIIMPO318F)	Plant	Conduct civil construction skid steer loader operations.
Work Safely at Heights (RIIWHS204E)	Safety	Certified for work at heights.

Asbestos Awareness	Safety	Asbestos awareness training.
Rio Tinto Site Induction	Safety	Rio Tinto Iron Ore site induction — current.
FMG Site Induction	Safety	Fortescue Metals Group site induction — current.

5. Referees

Professional references available upon request. Please contact ACM Resources to facilitate introduction.

ACM Resources is an active labour hire and construction contractor operating across WA mining and civil sectors. Mark Deans is presented by ACM as a skilled professional available for immediate placement. All enquiries regarding this CV should be directed to jobs@acmresources.com.au.
